Education

Vellore Institute of Technology
B.Tech in Computer Science- 9.11GPA

Bhopal, MP
Sept2024–present

Project

Project Exhibition Portal (Group Project)

<https://project-exhibition-portal.onrender.com>

- *ProjectExhibitionPortal: Faculty-Student Academic Collaboration Platform*
- *Built a full-stack web application enabling faculty to propose research projects and students to apply through a structured academic workflow.*
- *Implemented a peer-review system where each proposal is evaluated by 5 faculty reviewers, ensuring fair approval through consensus.*
- *Developed secure authentication using JWT and bcrypt, with enforced password change on first login for improved account security.*
- *Designed a role-based system (Admin, Faculty, Student) with controlled permissions for project management, applications, and account administration.*
- *Integrated MongoDB with Mongoose for efficient storage of projects, applications, and review data.*
- *Built a single-page frontend using HTML, CSS, and Vanilla JavaScript, ensuring real-time status tracking of student applications.*
- *Deployed the application on Render, enabling live access and scalable hosting.*
- *Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt.js, HTML5, CSS3, JavaScript*

ConnectBlink: Smart Device Connectivity & Automation Platform

- *Developed an IoT-based system to enable seamless communication between smart devices using real-time connectivity protocols.*
- *Built a centralized platform for monitoring and controlling connected devices, improving automation and user interaction.*
- *Implemented low-latency data exchange ensuring fast and reliable device responses.*
- *Designed a scalable architecture to support multiple devices and concurrent connections efficiently.*
- *Focused on user-friendly interface and system integration, making smart device management intuitive and accessible.*
- *Tech Stack: IoT, Embedded Systems, Networking Protocols, Web Interface (customizable based on what you used)*

Certifications

Fundamentals of AI and ML VITyarthi certificate

VITyarthi python essentials certificate

Google Certificate: The Bits and Bytes of Computer Networking
